OVERVIEW

As an enthusiastic and proactive person, I actively seek opportunities for self-improvement and confidently embrace challenges. I continuously build experience in professional environments to grow and become a valuable member of the team. With my creativity, eagerness to learn, and strong problem-solving skills, I aspire and expect to contribute meaningfully to the company's success.

WORK EXPERIENCE

(8/2024 - 2/2025) **Intern Web Developer**

- **Company:** FPT Software
- **Project:** Healthcare Web Application for a Japan Company
- **Domain:** Healthcare
- **Description:**
 - Developed and maintained a web-based healthcare system to manage patient records, appointments, and medical reports for a Japan-based client.
 - Supported the development of web features using Angular for frontend and Java Spring for backend
 - Fixed UI/UX bugs and performed basic testing
 - Built and tested RESTful APIs to handle medical record and appointment data
- **Tech Stack:** Spring Boot, Angular, SQL Server

SKILL & BACKGROUND KNOWLEDGE

Soft Skills:

- **Personal:** Self-learning, problem-solving, presentation, communication, teamwork, research and information searching.

Hard Skills:

- **Programming:** JavaScript, TypeScript, Java (OOP, Java 8+ features: Stream API, Lambda Expression)
 - **Framework:**
 - FE: React, Angular
 - BE: Express, Springboot, Spring core, Spring MVC
 - UI library: Antd, Angular Material
 - **Database:** MongoDB, MySQL
 - **Tools:** Git, Trello, Figma, Postman
- Languages:** Vietnamese: Native, English: Intermediate

PROJECT

(8/2024 - 12/2024) **COZYNEST**

- **Tech stack:**
 - **Front-end:** React, TypeScript, Antd,
 - **Back-end:** Express, TypeScript , MongoDB
- **Description:**
 - A full-stack eCommerce application where users can register, browse products, apply discount codes, manage their cart, and place orders. Payment options include Momo, VnPay, and ZaloPay. Users can also track their order history and receive status updates.
 - Admins can manage products, users with role-based access control, create and manage discount campaigns, and handle order processing including updating statuses, filtering, and tracking.
 - Built with React, TypeScript, Ant Design (frontend) and Node.js, Express, TypeScript, MongoDB (backend) for secure and scalable performance. Axios handles API requests, React Query manages data fetching and caching, Zustand manages client state, Zod validates forms, Cloudinary handles image uploads, and security is enhanced using Helmet, bcrypt for password hashing, and JWT for secure client-server communication.

EDUCATION

FPT POLYTECHNIC COLLEGE

Major: Web Developer

Specialization: Front-End Web Developer

8/2022 - 5/2025

GPA: 3.7/ 4.0
